

The Local SEO Checklist for Trades

SEO KINGS

The 22 things that decide whether your business shows up on Google Maps — tick what you have.

1. Google Business Profile — the fastest win

- ☐ Profile claimed and verified
- ☐ Primary category is your exact trade (“Plumber”, not “Contractor”)
- ☐ Every service listed, each with a short description
- ☐ 10+ real photos of your work — add more monthly
- ☐ Opening hours accurate, including holidays
- ☐ Phone number matches your website exactly
- ☐ Service areas list the suburbs you actually cover
- ☐ One post a month minimum — a job, a review, an offer

2. Reviews — the biggest ranking lever

- ☐ Ask every satisfied customer, the same day
- ☐ Send a direct review link, not “find us on Google”
- ☐ Aim for two or more new reviews a month
- ☐ Reply to every review within a week
- ☐ Happy customers asked to mention trade + area

3. Your website

- ☐ Loads in under 3 seconds on a phone
- ☐ HTTPS — the padlock shows
- ☐ Click-to-call number at the top of every page
- ☐ A page for each service you offer
- ☐ The towns you serve named in real sentences
- ☐ Name, address and phone identical to your GBP

4. Consistency across the web

- ☐ Same details on Yell, Checkatrade, Facebook etc.
- ☐ No old addresses or numbers left anywhere
- ☐ Facebook page details match your GBP

Ticked fewer than 15? That's normal — most trades fail half of these.

It's also why the Map Pack is winnable: fix these and you're ahead of most of your competition.
